Answer questions Nos. **58** to **61** based on the analysis of the following paragraph :

Differences between Juvenile Justice System and Criminal Justice System are as under :- FIR and Charge – sheet in respect of juvenile offenders is filed only in ‘serious cases’, where adult punishment exceeds 7 years. A Juvenile in conflict with the law is not “arrested”, but “apprehended”, only in case of allegations of a serious crime. Once apprehended, the police must immediately place such juvenile under the care of a Welfare Officer, whose duty is to produce the juvenile before the Board. Thus, the police do not retain pre-trial custody over the juvenile. Under no circumstances is the juvenile to be detained in a jail or police lock-up, whether before, during or after the Board inquiry. Grant of bail to juveniles in conflict with the law is the Rule. The JJ Board conducts a child-friendly “inquiry” and not an adversarial trial. This is not to say that the nature of the inquiry is non-adversarial, since both prosecution and defence submit their cases. Instead, the nature of the proceedings acquires a child-friendly colour. The emphasis of criminal trials is to record a finding on the guilt or innocence of the accused. In case of established guilt, the prime object of sentencing is to punish a guilty offender. The emphasis of juvenile ‘inquiry’ is to find the guilt/innocence of the juvenile and to investigate the underlying social or familial causes of the alleged crime. Thus, the aim of juvenile sentencing is to reform and rehabilitate the errant juvenile. The adult criminal system does not regulate the activities of the offender once he/she has served the sentence. Since the JJ system seeks to reform and rehabilitate the juvenile, it establishes post-trial avenues for the juvenile to make an honest living.

- 58.** The juvenile justice system has as its object
